### Authorization for Email Communications

The Firemen's Annuity and Benefit Fund of Chicago would like to provide participants the option of receiving and submitting select communications to and from the Fund via email. If elected, communications via email could include benefit estimates, contribution statements, proof of benefit letters, check stubs and periodic miscellaneous mass mailings from the Fund when available. This authorization also allows members the option of completing and submitting digitally signed forms through ID.me and Adobe Sign.

We want to make sure you know that e-mail communications between the Fund and participant may not be encrypted and therefore may not be secure communications. However, non-encrypted communications via e-mail would not include anything with a full social security number - but may include the last four digits of a social security number. Member email addresses will not be shared with any non FABF authorized person or entity.

If you would like the Fund to be able to communicate with you via email, please fill out, sign and return this letter. You may elect to have these email communications stopped or sent to a different email address at any time via the "stop electronic communication" or "change email address" forms available on the website or from the Fund office.

I, \_\_\_\_\_ authorize the Firemen's Annuity and Benefit Fund of Chicago to communicate with me via the email address provided below.
